

## Research Experience for Community College Students (RECCS)

Interested in a paid independent summer research opportunity in environmental science at the University of Colorado - Boulder?

We offer **10 paid** summer research internships for Colorado Community College students interested in Environmental Science, Atmospheric Science, Earth Science, Geology, Ecology, Geochemistry, Climate Science, and Geomorphology.

These are independent research projects guided by a science mentor.

This opportunity is open to all Colorado community college students.

**Dates:** 9 weeks (full-time commitment). **June 1 – July 31, 2020.**

### **Stipend and Support:**

- **\$600** per week for a total of **\$5,400** over the entire internship period
- **\$50** per week to cover fuel costs for local commuters
- **Free** housing in CU-owned apartments is available for students living outside the Denver Metro area

**Application Process:** Complete the online application, request Recommendation Packet from one of your instructors, and request an official transcript be sent from your college.

***Application deadline is February 1, 2020***
